1. Full name: ____________________________

2. Student ID: __________________________

3. Phone: ________________________________

4. Department: ____________________________

5. Personal email: __________________________

6. Number of points: __________________________

7. Average accumulated: __________________________

8. Estimated completion date (semester until): __________________________

9. Subjects studied:

   a. ____________

   b. ____________

   c. ____________

10. Project completion in the laboratory in the current semester:

   a. Yes/No ____________________________

   b. Yes/No ____________________________

   c. Yes/No ____________________________

11. Special project completion in the laboratory in the current semester:

   a. Yes/No ____________________________

   b. Yes/No ____________________________

   c. Yes/No ____________________________

12. This project is a special project (please circle according to the corresponding student):

   a. Z ____________________________

   b. Y ____________________________

   c. X ____________________________

   d. W ____________________________

   e. Special ____________________________

   f. W ____________________________

   g. X ____________________________

   h. Y ____________________________

   i. Z ____________________________

   j. S ____________________________

   k. M ____________________________

   l. A ____________________________

   m. B ____________________________

   n. G ____________________________

   o. H ____________________________

13. Project name and number: ____________________________

14. Project advisor: ____________________________

15. Project team member: ____________________________

16. Statement: I did not register for the same type of project (A, B, Special) in another laboratory.

17. Signature: ____________________________

18. Date: ____________________________

19. Additional instructions:

   a. Each student must fill out a separate form for each laboratory and project.

   b. No student is allowed to take two projects in the same laboratory in the same semester (exceptions – according to the advisor).

   c. No student is allowed to perform more than two projects in the same laboratory (exceptions – according to the advisor).

   d. This form and labadmin form are in the responsibility of the student himself/herself.

   e. Students from the Computer Science department: The advisor will register you with the numerically matching UG accounts.

   f. All project information is stored in the labadmin system.

   g. Students must fill out the project form: You must have one student for each project in the system. Each student must choose one student for each project in the system.
